ABOUT

Frazer-Nash Consultancy is a world class systems and engineering technology organisation, with an engineering pedigree reaching back into the early part of the 20th century. We are one of the UK's biggest providers of systems and engineering technology, with offices throughout the UK.

Frazer-Nash has a long track record of delivering technological advances to the Marine sector. Areas of particular expertise include:

- Developing and applying advanced hydrodynamic and hydroelastic design methods for high speed craft;
- Analysing marine accidents and injuries, and developing preventative measures;
- Developing and applying design methods for high performance sailing craft;
- Helicopter approach simulation for offshore installations and superyachts;
- Noise and vibration prediction and measurement;
- Managing the assessment and restoration of historic ships;
- Safety assurance for ships and offshore installations.
