ABOUT

In an era of mass production and throw-away values, Royal Huisman is a shipyard that is determined to hold the torch for the finest custom engineering and craftsmanship. Its mission is to create and [refit \(link\)](#) exceptional individual yachts for individuals with exceptional vision and discriminating standards.

The yard is family-owned and was established in 1884. The award of the “” warrant in 1984 gave recognition to 100 years of quality and excellence – a highly prized accolade and one that is earned neither rapidly nor easily. This long heritage of Dutch maritime engineering has invested the yard with a culture of perfectionism that applies itself as much to leading-edge technologies as it does to traditional practices. Royal Huisman’s [Intelligent Engineering™ \(link\)](#) blends infrastructure, expertise, specialist skills and technologies in the optimal manner for each individual project. Continual investment in the yard’s 30,000m² purpose-built [facilities \(link\)](#) keep it at forefront of custom yacht-building.

Royal Huisman takes pride in building [unique custom yachts, classic or modern, sail or motor, from 30-90m / 100-300ft \(link to the portfolio\)](#) in Alustar aluminium or carbon composite with a dedicated focus on quality rather than quantity.
